## 大会简介/ Introduction

今天，全世界正团结一致共同应对历史上最具灾难性的公共卫生挑战之一。疫情期间，人类生活的各个方面都受到了很大的影响，尤其是对人类的心理和精神方面，备受 Covid-19 煎熬的人类也正在努力恢复正常功能。为了让人们在持续的疫情下摆脱心理和精神疾病，第三届公共健康与卫生国际学术会议旨在聚集来自世界各地的研究人员、院士、政策制定者以及工业专业人士提出与该主题相关的贡献，分享积极想法。由 International Association of Management Science & Engineering Technology (IAMSET 艾慕赛特)和河南省医学会医学工程分会学术与转化组共同承办的“**第三届公共健康与卫生国际学术会议**”（The 3<sup>rd</sup> International Conference on Public Health and Hygiene, 简称 ICPHH2022）拟定于 2022 年 12 月 22 日召开互联网线上会议。

本次大会的主题包括但不限于：

公共心理健康

心理学与意识

人格、认知与自我调节的关系

教育心理学

焦虑和压力障碍

情绪障碍

行为与精神病学

职业健康与安全

公共卫生政策

传染病：流行病学和预防

公共卫生教育与推广

卫生经济学……

本次会议广泛诚邀国内外高校、科研机构的知名专家、企业界人士及其他相关领域人员参会交流，提供一个扩大业内影响、提高学术认同、促进学术成果转化及科研交流的合作平台。

Today, the world is united in combating one of the most disastrous public health challenges of history. During the pandemic, all aspects of human have been greatly influenced, especially to human psychology and spirit. Defeated by Covid-19 virus, humankind is struggling to restore its normal functionalities. In order to have people escape from psychological and psychiatric disorders under the on-going pandemic, the 3rd International Conference on Public Health and Hygiene (ICPHH 2022) expects to gather researchers, academicians, policy maker as well as industrial professionals from all over the world to present contributions related to the theme, share ideas for positive guidance. **The 3<sup>rd</sup> International Conference on Public Health and Hygiene (ICPHH2022)**, which is organized by International Association of Management Science & Engineering Technology (IAMSET) and Academic and Translational Group, Medical Engineering Branch of Henan Medical Association, will be held on the Internet during Dec. 22, 2022.

The topics include but are not limited to:

Public Mental Health

Psychology and Consciousness

Relationships between Personality, Cognition and Self-regulation

Educational Psychology

Anxiety and Stress Disorders

Emotional Disorders

Behavior and Psychiatry

Occupational Health and Safety

Public Health Policy

Infectious Diseases: Epidemiology and Prevention

Public Health Education and Promotion

Health Economics

.....

**ICPHH2022** aims to provide a cooperative platform for researchers, practitioners and educators to exchange and share their research results and frontier technology about Environmental Engineering and Disaster Management with academic scientists, researchers, engineers, academicians as well as industrial professionals from all over the world

## 组织机构 Organization

- **承办单位**

- 国际管理科学与工程协会 (IAMSET)

- 河南省医学会医学工程分会学术与转化组

- **协办单位**

- 郑州大学医学工程技术与数据挖掘研究所

- **Organizer**

- International Association of Management Science & Engineering Technology (IAMSET)

- Academic and Translational Group, Medical Engineering Branch of Henan Medical Association

- **Co-organizer**

- **Zhengzhou University Institute of Medical Engineering Technology and Data Mining**

**Lihong Li, Prof. The Second Affiliated Hospital of Zhejiang Chinese Medical University**

She has long been dedicating to the study related to Parkinson's disease (PD) and in charge of many scientific research projects at national or provincial level. The major domains of these projects concentrating on the potential effects and underlying mechanisms of acupuncture on PD either by clinical studies or animal experiments. Clinical studies include the acupoints selection based on data mining, therapeutic mechanisms of acupuncture on PD through imaging and molecular science (e.g., changes in blood oxygen-dependent signal levels in SCN after acupuncture intervention) and a unique acupuncture regimen on the motor symptoms of PD. The basic studies focus on the effects and mechanisms of acupuncture from the perspectives of proliferation and differentiation of endogenous neural stem cells and changes in  $\alpha$ -syn involved in gut-brain on a model of PD estimated by 6-OHDA injection. In addition. She is also conducting studies associated with depression, especially on teenagers and PD patients. She is the member of General Hospital Branch of Chinese Acupuncture Society, Sleep Management Committee of Chinese Acupuncture Society and the Prevention and Treatment Branch of Chinese Association of Traditional Chinese Medicine; vice chairman of Traditional Chinese Medicine Clinical Research Branch of Zhejiang Chinese Medicine Association; standing Member of Zhejiang Provincial Acupuncture and Moxibustion Professional Committee and Medical and Health Professional Committee of Zhejiang Quality Association. She published 13 and 6 peer-reviewed original articles in English and Chinese. Her team have successfully applied 8 patents especially on the wearable AI acupoint electrical stimulation device. She also served as chief editor or deputy editor of three books.

## 国际期刊 International Journals

ICPHH 组委会鼓励作者通过提交摘要或全文参加会议。会议接收疫情对人类心理和精神的影响等相关的各领域的高质量研究论文。

会议与知名出版商的国际认证期刊合作，会议参与者有机会在这些期刊上提交他们的完整论文进行在线发表。所有投稿都要进行双盲同行评议，投稿结果将取决于同行评审意见。

建议与会者在决定合适的期刊之前，先阅读期刊的范围和目的。会议遵循普遍接受的出版道德规范。

**您所选择的期刊的投稿指南和作者说明将在会后通过电子邮件单独提供。**

包括但不限于以下期刊：

---

The ICPHH organizing committee encourages authors to participate in the conference by submitting abstracts or full papers. The conference accepts high quality research papers in all fields related to Influences of Pandemic to Human Psychology and Spirit. We are working with internationally accredited journals from renowned publishers and conference participants are provided with the opportunity to submit their full papers for online (closed access) publication in these journals. All supporting journals are subjecting submissions to the double-blind peer-review process. The decision on publication will depend on the peer-review process. Participants are advised to read the journal's scope and aim before deciding the suitable journal. We follow universally accepted ethics on publication.

**Guides on submission and author instructions of your preferred journal will be provided separately via an email after the conference.**

Journals include but are not limited to:

## 主讲嘉宾 Keynote Speaker

### **Yan Zhang, Professor, Huazhong University of Science and Technology**

She received her Ph.D from Southwest University, China in 2012. She was responsible for the following projects: National Natural Science Foundation; Fund project of humanities and social sciences research planning; Key project of Hubei Education Science Planning, etc. She published more than 30 SCI, SSCI, EI papers, and 8 books. She also has won a number of outstanding achievement award of social science, academic and teaching awards at both provincial and university levels.

Topic of Keynote Speech: Mechanism of the stress response to COVID-19

### **Yineng Xiao, Doctor, Advanced Institute of Information Technology, Peking University**

Dr. Yineng Xiao, research fellow in Advanced Institute of Information Technology of Peking University. He finished his post-doctoral research in School of Health Humanities of Peking University from 2020 to 2022, and he was the main participant in the research project "Legislative Research on the Regulations on Prevention and Control of Infectious Diseases in Beijing", which was grant by Beijing Health Committee. He was also a core research participant in the National Social Science Major Project "Research on Market Reform of Land, Labor, Capital, Technology and Data" (No. 21ZDA049). He obtained his doctoral degree of law from Peking University in 2020. He is a board member of Chinese Law Association on Science and Technology since 2022. He has published several research articles indexed by SCI, SSCI, CPCI and CSSCI. His research interests include intellectual property law, health law, science and technology law. He focuses on the ethical and legal constants of the medical artificial intelligence product development and the autonomous driving algorithm designs.

Topic of Keynote Speech: Research on Product Liability of Medical Artificial Intelligence

### **Jingtao Fu, Professor, Hainan University**

Doctoral supervisor, and the vice president of School of Management of Hainan University, Hainan Nanhai expert(youth) and top talent in Hainan Province. Committed to the research of salary administration and performance management, leadership and team construction, corporate governance and enterprise party building. Published more than 20 papers in “Management Review”, “Economic Management”, “Chinese Journal of Management”, “Psychology Research and Behavior Management”, and “Current Psychology” etc. Presided over two general programs of the National Social Science Fund and published two books. Acquired the third prize of Hainan Social Science Outstanding Achievement, the third prize of Hainan Free Trade Port Research Outstanding Achievement, and the first prize of Hainan Province's first professional degree postgraduate teaching case.

Topic of Keynote Speech: Citizenship Pressure and OCB

## 口头报告 Oral Presentation

### **Sadia Abbas, Membership of “Pakistan Psychological Association” (PPA), Pakistan**

Sadia Abbas is a young researcher. She served as trainee clinical psychologist more time and has experience in clinical psychology. Sadia Abbas works for utilization of her expertise and knowledge to serve patients in an empathetic way for their mental health to address psychological problems of the patients in a therapeutic way for their improved well being. She has published more excellent articles in Socio-Economic Planning Science, the Journal of Psychology, Journal of Rational-Emotive & Cognitive-Behavior Therapy, etc.

Topic of Oral Presentation: The relationship between post-traumatic stress reaction and post-traumatic growth of residents during the peak period of COVID-19: a moderated mediation model

### **Aashiq, Askari Foundation School and College System Baffa Doraha, Pakistan**

Aashiq is studying for a PHD in Askari Foundation School and College System Baffa Doraha now. His research interest is educational psychology. He presented research papers at 1<sup>st</sup> International Conference on Challenges of Education in Pakistan organized by Department of Education, the University of Haripur (ICCEP2019) and International Conference on Educational Management and Planning (EMP2013). And he also published papers on psychology, eg. “Psychological stress of university students in the hardest-hit areas at different stages of the COVID-19 epidemic” and “Attractiveness-related recognition bias captures the memory of the beholder”.

Topic of Oral Presentation: Psychological adaptation and prevention behaviors during the COVID-19 pandemic: a moderated mediation model

**Anam Nazneen Tara, Pakistan**

Anam Nazneen Tara obtained Master of Philosophy in Education in University of Lahore, and M.A in Education in University of Sargodha, Punjab Pakistan. Her research interest is comparative teacher education cognition, learning and assessment education measurement and evaluation, curriculum theories and model, educational leadership and management. She formed and published her research article “Effect of gender discrimination and perceived discrimination on the satisfaction level of working women in education sector” in 20/02/2019. Anam Nazneen Tara was also selected for 4<sup>th</sup> International Conference in (AIU) Pakistan and gave a presentation on 3<sup>th</sup> Research Conference in (BZU) Pakistan.

Topic of Oral Presentation: The influence of anxiety level on stress response of university students during the COVID-19 pandemic peak: the mediating role of stress management and the moderating role of risk cognition

**Irum Zeb, Pakistan**

Irum Zeb obtained BS(Education) during 2011-2015 and MS/M PHIL(Education) during 2015-2017 in Department of Education, Hazara University KPK, Pakistan. Her interest is in sociology and educational psychology. She worked as Vic principal in University Model Public School. She also worked with FAIDA Foundation, and attended “International conference on Syed Ahmed Shaheed” and “Oxford University Press Workshop on Social Study”.

Topic of Oral Presentation: The effect of stress response on coping style of college students during the peak period of COVID-19: A moderated mediation model

**Meng Hu, PhD, Jiangxi Normal University**

2022 Postdoctoral research at Jiangxi University of Finance and Economics, working on health statistics; development of big health industry, coupled and coordinated development of pharmaceutical manufacturing and medical services. She has published papers in “Contemporary Finance and Economics”, “Frontiers in Public Health”, and participated in major projects of the National Social Science Foundation.

Topic of Oral Presentation: The health effect evaluation of coupled and coordinated development of pharmaceutical manufacturing and medical service industry

**Zitong Xu, PhD, Wenzhou Institute, University of Chinese Academy of Sciences**

Her research interests are Acupuncture and Tuina, Clinical and basic research of Integrated TCM and Western medicine analgesia, Chinese Medicine, Application of Basic Theory of TCM in Nephropathy research. She has presided over a university level scientific research project, a provincial Health Commission Scientific research project and a post-doctoral fund scientific research project. Participants of scientific research projects: 1 project of the National Natural Science Foundation, 2 projects of the Provincial Administration of Chinese Medicine, and 1 provincial TCM science and technology project. She has won Zhejiang Provincial Health Commission 2022 China and Europe (Zhejiang Life Health Innovation and Entrepreneurship Competition) awards.

Topic of Oral Presentation: Sleep physio-pathology and management
